Deuce Drone Receives Inaugural Investment Award from the Innovation Portal Incubator

MOBILE, ALABAMA (February 22, 2021) – Deuce Drone today announced that it has received a \$50,000 investment as part of the inaugural Portal Fund a nonprofit investment fund for early-stage ventures in the South Alabama region with high-growth potential. The Portal Fund is managed by the Innovation Portal, a Mobile, Alabama based non-profit incubator.

“We are very proud of the Deuce Drone team for coming so far so fast” said Rhett Ross, CEO of Deuce Drone. “Receiving this award out of a field of 20 local Alabama companies reflects the hard work of our team and the achievements made by them in a short amount of time.”

Deuce Drone began its technical development in April 2020 with the objective of designing software, package management systems, customer apps and other technology that would allow unmanned aerial systems (drones) to safely deliver packages between businesses and customers. The funds provided by this investment will be used to accelerate its development activities leading to revenue trials of its service offerings in 2021.

About Deuce Drone: Deuce Drone solves the last mile delivery problem for “brick and mortar” retailers by enabling drone shipment from existing stores. Leveraging clients’ current infrastructure, we design, build, and operate drone delivery systems, transforming retail stores into customer fulfillment centers. Deuce Drone provides a cost-effective, technology-driven solution for same-day delivery that allows retailers to compete with major e-commerce players.
